

# PALES 12<sup>th</sup> Annual Convention: The P.A.N.D.E.M.I.C Aftermath

## 12<sup>th</sup> ANNUAL CONVENTION

July 13 – 16, 2022

PALES 2022 “The PANDEMIC aftermath: Pursuing A New Dimension of Education in Minimally Invasive Concepts”

**Program Description:** The PALES Annual Convention provides continuing surgical education for PALES Fellows, its members, trainees and other practicing general surgeons of the Philippines. Its purpose is to present latest local and international evidence, recommendations, and guidelines of minimally invasive management of surgical diseases, to enhance and develop laparoscopic and endoscopic technical skills, and to promote various approaches and applications of laparoscopy and endoscopy with emphasis on quality of surgical care and patient safety.

This year’s convention, with the theme, “The PANDEMIC aftermath: Pursuing A New Dimension of Education in Minimally Invasive Concepts”, thru a series of decisive lectures, that are evidence based, presenting new concepts and relevant discussions in minimally invasive surgery. We aim to provide our audience with current concepts and recent innovations improving current standards, promoting emerging relevant techniques and technologies, and enhancing surgical training. Furthermore, we aim to reinforce our fellows with the highest standard of laparoscopic practices and standards, promoting safe laparo–endoscopic techniques in our country, which eventually will lead to the best quality of care.

DAY 1 July 13, 2022 (Wednesday) PRE-CONGRESS ACTIVITIES (Limited face-to-face workshops)						
Time   Venue	SEALS (Surgical Endoscopy and Advanced Laparoscopic Surgery)	Philippine Center for Advanced Surgery (PCAS)	SLMC – College of Medicine (Simulation Laboratory)	Center for Advanced Skills Simulation and Training Innovation (CASSTI)	Asian Hospital and Medical Center	Philippine Heart Center
07:30 am	VIRTUAL OPENING CEREMONY (BOD AND ORGANIZING COMMITTEE)					
08:00 – 12:00	<b>“SEALS LIVE” Surgical Endoscopy</b> at RMC, SPMC and CDUH  Sponsored by:  <small>Advancing science for life™</small>  <b>Session Objective:</b> To give crash course on Endoscopy to General Surgeons  <b>Learning Outcomes:</b>	<b>Colorectal Cadaveric Workshop with Live Surgery</b>  Sponsored By: Olympus Singapore  <b>Course Description:</b> This is a one-day workshop that will provide alternative treatment of colorectal diseases for general surgeons. <b>Objective:</b> To teach the General Surgeon how to do minimally invasive colorectal surgery.	<b>Advanced Laparoscopic Suturing Workshop for Trainees</b>  Sponsored by: Transmedic, J&J Phils. and Karl Storz  <b>Didactics:</b> (virtual or recorded videos/lectures) 1. Endoscopic suturing as an essential tool to minimally invasive surgery 2. Minimally invasive instruments and sutures as your friend	<b>Choledochoscopy Workshop</b>  Sponsored by: Karl Storz Endoscope  <b>Overall Head:</b> Deogracias Aberto Reyes  <b>Course Overview:</b> 1. Total number of participants (30) will be expected to perform tasks provided in the workshop.	<b>Metabolic and Bariatric Surgery</b>  Sponsored by: Strker, Transmedic and J&J Phils.  <b>Program Highlights:</b> 1. Didactic Lectures on Current Evidence, Pre-operative Evaluations, Surgical Technique and Tricks, and Avoiding Complications on Laparoscopic Sleeve Gastrectomy	<b>3D Bowel Anastomosis Workshop</b>  Sponsored by:  <small>SHARING EXPERTISE</small>  <b>Coordinators:</b> Mary Grace Balunsat, MD Joseph Angelo Kiat, MD Andrew Peter Calimag, MD  <b>24 participants (6 per batch)</b> <b>Invite nurses</b>

PALES 12<sup>th</sup> Annual Convention: The P.A.N.D.E.M.I.C Aftermath

<p>At the end of this session, the attendee should be able to:</p> <ol style="list-style-type: none"><li>1. Recognize the indications of endoscopy in the practice of general surgery</li><li>2. Understand the use of endoscopy in the diseases commonly encountered in general surgery</li><li>3. Recognize the use of endoscopy as adjunct in the practice of general and minimally invasive surgery</li></ol> <p><b>Introduction of Lecturers</b> Elizabeth C. Domingo, MD</p> <ul style="list-style-type: none"><li>▪ <b>Invocation</b></li><li>▪ <b>Welcome Address</b> Miguel C. Mendoza, MD</li><li>▪ <b>Message and AVP</b> Boston Scientific</li><li>▪ <b>Introduction to Endoscopy</b> Cyndi Rikka N. Loyola-Almirez, MD</li><li>▪ <b>Live Demo</b> @ Rizal Medical Center</li><li>▪ <b>Image-Enhanced Endoscopy for Early Nasopharyngeal Lesions</b> Michael Jeff Fontano, MD</li><li>▪ <b>Live Demo</b></li></ul>	<ul style="list-style-type: none"><li>▪ <b>Registration</b></li><li>▪ <b>Welcome Remarks</b></li><li>▪ <b>Introduction to the Course</b></li></ul> <p><b>Principle and Technique for Left Side</b></p> <ul style="list-style-type: none"><li>▪ <b>Sigmoidectomy</b> Ryan Rainiel Abary, MD</li><li>▪ <b>TME</b> Alfred Allen Buenafe, MD</li><li>▪ <b>Splenic Flexure Takedown</b> Andrei Cesar Abella, MD</li></ul> <p><b>Principle and Technique for Right Side</b></p> <ul style="list-style-type: none"><li>▪ <b>Right Hemicolectomy CME + CVL</b> Carlo Angelo Cajucum, MD</li><li>▪ <b>Extended Right Hemicolectomy</b> Joseph Roy Fuentes, MD</li><li>▪ <b>Hepatic Flexure Takedown</b> Joseph Roy Fuentes, MD</li><li>▪ <b>Words from the Sponsor</b></li></ul>	<ol style="list-style-type: none"><li>3. 3P's of laparoscopic suturing (proper posture, plane and position)</li><li>4. The needle as your sword (needle manipulation)</li><li>5. Breaking down the anatomy of endoscopic suturing (types of laparoscopic suturing)</li><li>6. Never too old to take baby steps (simulation-based skills development)</li></ol> <p>Dry and wet lab (porcine tissue, stomach, and intestine): (F2F limited participants) * make questionnaire for the participants as to their exposure to laparoscopic surgery</p> <ol style="list-style-type: none"><li>1. Rope Threading</li><li>2. Block transfer</li><li>3. Needle threading</li><li>4. Shoestring</li><li>5. Intracorporeal suturing and knot tying (simple interrupted)</li><li>6. Extracorporeal suturing and knot tying (simple interrupted)</li><li>7. Continuous suturing and knot tying</li></ol> <p>Wet Lab: Porcine Tissue Anastomosis</p> <p>Jeffrey Domino, MD &amp; Jonathan Joy Adora, MD</p>	<ol style="list-style-type: none"><li>2. There will be five stations for the whole duration of the workshop. Six (6) participants will be assigned per station.</li><li>3. Each station shall comprise of different choledochoscopic exercises both on inanimate and animal tissue models.</li><li>4. All the materials needed for the completion of the exercises will be provided on site.</li><li>5. The workshop will be broadcasted simultaneously with other workshops by PALES.</li></ol> <p><b>Specific Objectives:</b> At the end of the workshop, participants must be able to:</p> <ol style="list-style-type: none"><li>1. Understand the basic indications of choledochoscopy</li><li>2. Familiarize with the parts, controls and manipulation of a choledochoscope (proper handling and care, knob functions and orientation).</li><li>3. Gain adequate skills in performing choledochoscopic stone basket extraction (through inanimate and animal tissue models) and laparoscopic</li></ol>	<ol style="list-style-type: none"><li>2. Live Surgery on Laparoscopic Sleeve Gastrectomy</li><li>3. Hands-on Workshop on Laparoscopic Suturing and Laparoscopic Stapling</li></ol> <p><b>Invited Faculty:</b> Michelle Lim-Loo, MD Miguel Mendoza, MD CK Huang, MD (Taiwan) Matt Hsin, MD (Taiwan)</p> <p><b>Course Directors:</b> Darwin S. Salonga, MD, FPCS, FPALES Miguel C. Mendoza, MD, FPCS, FPALES</p>
